1. 5X1X	Source learned that about 40 percent of the KVP effectives stationed at Sternbuthholz moved to the Erfurt area in mid-	
	August 1953.1	
	On 5 September 1953, the KVP barracks installation at Sternbuchholz quartered about 3,000 men who wore red and red-bordered black spaulets. Lieutenant Golonel Nacks——was commanding office of the Bereitschaft. KVP details observed included 30 men being trained with 10 x 120-mm nortars; 40 men with 6 medal ZIS-3 light field guns; and about 10 squads of about 8 men each being trained on light machine guns. Near the intrance of the installation source saw two T-34 tanks.	25X

25X1X X1B X1A 1	On 5 September 1953, the KVP barracks installation at Sternbuchholz quartered about 3,000 men who were red and led-bordered black epaulets. Lieutenant Colonel Nacks——was commanding office of the Bereitschaft. KVP details observed included 30 men being trained with 10 x 120-mm mortars; 40 men with 6 model ZIS-3 light field guns; and about 10 squads of about 8 men each being trained on light machine guns. Near the intrance of the installation source saw two T-34 tanks.  Comment. A troop train coserved on 28 August, may be connected with this transfer.  Comment. KVP Bereitschaft Sternbuchholz——belongs to TV Schwerin. The Bereitschaft mainly consists of infantry units with assigned artillery. This assigned is supported by the service colors observed at Sternbuchholz. Lieutenant Colonel. Karl Nacke, a former German Army Lieutenant colonel——and regimenal commander was previously reported as being the commanding officer of Berei:chaft Sternbuchholz. In November 1952, he was, allegedly, transferred to the EWKVF and detached to a training course in the USSR. The present report indicates that after returning from the USSR, Nacke took over the command of the KVF unit in Sternbuchholz as successor to Major	25X 25X
